**Auditor's report**

**To: The Shareholders of Arabian Food Industries Company (Domty) - (S.A.E)**

**Report on the consolidated financial statements**

We have audited the accompanying consolidated financial statements of Arabian Food Industries Company (Domty) - S.A.E and its subsidiary (the Group), which are comprised of the consolidated financial position as of December 31, 2024, the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes.

**Management's responsibility for the consolidated financial statements**

These consolidated financial statements are the responsibility of the company's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Egyptian Accounting Standards, and the prevailing Egyptian laws and regulations. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; also this responsibility includes selecting and applying appropriate accounting policies and making accounting estimates that are reasonable in the circumstances.

**Auditor's responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Egyptian Auditing Standards and in the light of prevailing Egyptian laws. Those standards require that we plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatements.

The company's consolidated financial statements for the year ended December 31, 2023, were audited by another auditor who issued his unqualified audit opinion dated March 10, 2024, on consolidated financial statements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidences we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

### Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Arabian Food Industries Company (Domty) - S.A.E and its subsidiary (the Group) as of December 31, 2024, the results of its operations and its cash flows for the financial year then ended, in accordance with the Egyptian Accounting Standards and the applicable Egyptian laws and regulations related to the preparation of these consolidated financial statements.

- The accompanying notes from (1) to (35) form an integral part of these consolidated financial statements.

## 1- REPORTING ENTITY

Arabian Food Industries Company (Domty) – S.A.E (the "Company") or (the "Parent Company") was originally established under the name of Damati Company for Food Industries as a limited liability company under contract No. 18/84 dated 14 March 1984. The contract was amended on 18 July 1988 when the Company's headquarters changed, and on 14 August 1988 an Extraordinary General Assembly meeting was held and resolved to change the company's legal form from limited liability company to joint stock company subject to the Companies Law No. 159 of 1981 and its executive regulations.

Based on the shareholders resolution made in the Extraordinary General Assembly meeting held on 16 August 2005 the Company's name was changed to Domty Company for Food Industries "S.A. E"

Based on the shareholders resolution made in the Extraordinary General Assembly meeting held on 6 August 2006 the company name changed to Arabian Food Industries Company (Domty) S.A.E instead of Domty Company for Food Industries and the commercial register was amended.

The Company has been registered under the commercial register number 80124 on 7 September 1988.

The company's period is 50 years, starting from 7 September 1988 till 6 September 2038 and is renewable.

The Company's headquarter is located at 32 c Taha Hussein Street, (previously Murad Street) - Giza

Location of activity:

- 1- Second Industrial Zone, Block 12, 6<sup>th</sup> of October City.
- 2- Northern Expansion Area (CBC) – 6<sup>th</sup> of October City, Blocks (43-44-45-46-63-64-65-66)

The board of directors can decide to set up branches or agencies for the company in Egypt or outside, except for Sinai Peninsula. The entity is obliged to agree prior to opening any branches or in the case of relocating the headquarters to another governate, must be based on the decision of the extraordinary general assembly.

The purpose of the company is to manufacture dairy products of all kinds (ice cream - yogurt - white cheese and processed cheese - sterile milk) as well as the expansion in the manufacture of other food products, reclamation and cultivation of land, the establishment of feed factories, dairy production farms, cattle breeding, all food industries, the manufacture of special foods, nutritional supplements and baked goods of all kinds, the import of processed and semi-processed foodstuffs from abroad, packaging and distribution, the sale and marketing of products and food manufactures for the account of others from local and foreign companies and agencies in the food manufacturing industry.

It has the right to participate in companies with similar activity and the use of foreign expertise in the areas of previous activity, to obtain the right to know from foreign companies with similar activity. The company has the right to import all production requirements necessary for its activity and export all its products to global markets, and the company may have an interest or participate in any way with entities that engage in similar business, or that may cooperate to achieve its purpose in Egypt or abroad.

The consolidated financial statements comprise the financial statements of Domty and its subsidiary, El Tatweer Food Industries Company (S.A.E).

On 30 April 2014 the Company acquired 99.99% of the shares of El Tatweer Food Industries Company (S.A.E) (note 2).

On 16/11/2023, the value of the increase in the capital of El Tatweer for Food Industries Company was noted by an amount of 58 million Egyptian pounds, so that the issued and paid-up capital of El Tatweer Food Industries Company became 68 million Egyptian pounds, distributed over 680 thousand shares, belonging to the Company of which 679,998 shares, and thus the percentage of acquisition of the shares of El Tatweer for Food Industries Company reached 99.9997%.

EL Tatweer for Food Industries Company was established as a joint stock company subject to the Companies Law No. 8 of 1997 and its regulations and for the purpose of establishing and operating a factory for the manufacture of different kinds of cheese, canning juice and the establishing of stores and a refrigerator for dairy products by cooling and freezing for the Company and for others, in accordance with the laws and regulations.

The company was registered under the Commercial Register No. 37566 on March 11, 2009.

The consolidated financial statements of the Company for the year ended 31 December 2024 were authorized for issuance in accordance with a resolution of the board of directors on 4 March 2025.

## **2- BASIS OF PREPARATION OF THE CONSOLIDATED FINANCIAL STATEMENTS**

The consolidated financial statements have been prepared under the going concern assumption on a historical cost basis.

The consolidated financial statements are prepared and presented in Egyptian pounds, which is the company's functional currency.

On 30 April 2014, the Company acquired 99.99% El Tatweer for Food Industries Company (S.A.E) that was previously under the control of the shareholders of the Parent (the "Joint Control Transaction") for LE 10,752,733 in cash. As this transaction involved the combination of businesses under joint control, the pooling of interest in presenting the consolidated financial statements for the years ending 2012, 2013, 2014 was applied. It displays the group's results as if El Tatweer for Food Industries Company was always a part of the group. Accordingly, the company's assets and liabilities were transferred at historical cost.

The consolidated financial statements present the results and changes in equity of the Company and its subsidiary as if the Group had been in existence throughout the years presented and as if the previous transactions had been transferred to the Company in the years presented. On 24 May 2022, the investments of the Arab Food Industries Company "Domty" in El Tatweer for Food Industries Company (S.A.E) were increased by an amount of 3,750,000 Egyptian pounds, and this amount represents the value of completing the capital increase of El Tatweer for Food Industries Company (S.A.E) at 26 October 2023, On 31 October 2023, the investments of the Arab Food Industries Company "Domty" in the Food Industries Development Company were increased by 58 million Egyptian pounds.

### **Statement of compliance with accounting standards**

The consolidated financial statements of the Group have been prepared in accordance with the Egyptian Accounting Standards and the applicable laws and regulations. The accounting policies applied this year are consistent with those applied in the previous year.

The company has applied the amended Egyptian Accounting Standard No. (13) 2024 "Effects of changes in foreign exchange rates" issued on March 3, 2024, and is applicable to financial periods commencing on or after January 1, 2024, and there is no impact on the opening balance of retained earnings on the date of application.

## **Basis of consolidation**

### **(a) Subsidiaries**

Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Accounting for business combination under EAS 29 only applies if it is considered that a business has been acquired. For acquisitions meeting the definition of a business, the purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued, and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the statement of income.

Inter-company transactions, balances and unrealized losses on transactions between Group companies are eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

### **(b) Transactions with non-controlling interests**

The Group applies a policy of treating transactions with non-controlling interests as transactions with equity owners of the Group.

For purchases from non-controlling interests, the difference between any consideration paid and the relevant shares of non-controlling acquired of the carrying value of the net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

## **2-1 SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES**

The preparation of these Consolidated financial statements requires management to make judgments and estimates that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Estimates and their underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

The key judgements and estimates that have a significant impact on the Consolidated financial statement of the Company are discussed below:

## **2-1-1 Judgments**

### **Revenue recognition for sale of goods**

In making their judgment, management considered the detailed criteria for the recognition of revenue from the sale of goods as set out in "EAS 48 Revenue from contracts with customers", and, in particular, whether the significant risks and rewards of ownership of the goods have passed to the buyer.

## **2-1-2 Estimates**

### **Impairment of trade and other receivables**

An estimate of the collectible amount of trade and other receivables is made when collection of the full amount is no longer probable. For individually significant amounts, this estimate is performed on an individual basis. Amounts which are not individually significant, but are past due, are assessed collectively and a provision is applied according to the length of time past due, based on historical recovery rates.

### **Useful lives of fixed assets**

The Company's management determines the estimated useful lives of its fixed assets for calculating depreciation. The residual value and estimated useful life of fixed assets are reviewed at least at the end of each financial year. When expectations differ from previous estimates, such changes are treated as a change in accounting estimate in accordance with Egyptian Accounting Standard No. (5) "Accounting Policies, Changes in Accounting Estimates, and Errors." This ensures that the depreciation method and period remain consistent with the expected pattern of economic benefits derived from these assets.

### **Taxes**

The Company is subject to income taxes in Egypt. Significant judgment is required to determine the total provision for current and deferred taxes. The Company establishes provision, based on reasonable estimates, in consideration for possible consequences of audits by the tax authorities in Egypt. The amount of such provision is based on various factors, such as experience of previous tax audits and different interpretations of tax regulations by the Company and the responsible tax authority. Such differences of interpretations may be on a wide variety of issues depending on the conditions prevailing in Egypt.

Deferred tax assets are recognised for unused accumulated tax losses to the extent that it is probable that taxable profits will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

### **Impairment of non-financial assets**

The Company assesses whether there are any indicators of impairment for all non-financial assets at each reporting date. The non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. When value in use calculations are undertaken, management estimates the expected future cash flows from the asset or cash-generating unit and chooses a suitable discount rate in order to calculate the present value of those cash flows.

### **Provision for sales returns**

The company's management determines the estimates of the provision for sales returns. This estimate is determined after considering the previous experience of sales returns, revenue volume and sales volume, and management periodically reviews the estimated provision value to ensure that the provision is sufficient to cover sales returns.

## **2-2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **2-2-1 Foreign currency translation**

- Transactions in foreign currencies are initially recorded using the exchange rate prevailing on the date of the transaction.
- Monetary assets and liabilities denominated in foreign currencies are retranslated using the exchange rate prevailing at the reporting date. All differences are recognized in the statement of profit or loss.
- Nonmonetary assets and liabilities that are measured at historical cost in foreign currency are translated using the exchange rates prevailing when the fair value was determined.

### **2-2-2 Financial Instruments**

Egyptian Accounting Standard 47 "Financial Instruments" which replaced the Egyptian Accounting Standard 26 Financial Instruments: Recognition and Measurement. Egyptian Accounting Standard 47 was issued in 2019, and the standard began to be applied on or after 1 January 2021 in Egypt. Except for hedge accounting, retrospective application is required, but adjustment of comparative information is not mandatory.

The standard deals with three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

#### **Classification and measurement**

Under EAS 47, debt instruments are subsequently measured at fair value through profit or loss, amortized cost, or fair value through OCI. The classification is based on two criteria: The Company's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding.

The assessment of the Company's business model was made as of the date of initial application and the assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

#### **Impairment**

The new impairment model according to EAS 47 requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under EAS 26. It applies to financial assets classified at amortized cost, debt instruments measured at fair value through other comprehensive income, contract assets under EAS 48 Revenue from Contracts with Customers, lease receivables, loan commitments and certain financial guarantee contracts.

#### **Financial instruments – initial recognition and subsequent measurement**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### **i) Financial assets**

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them.

For a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

#### **Impairment of financial assets**

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment, that includes forward-looking information.

The Company consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash.

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

## ii) Financial liabilities

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

### 2-2-3 Lease Contracts

- ESA 49 Requires lessees to recognize a lease liability reflecting future lease payments and a 'right-of-use asset' for virtually all lease contracts. There is an optional exemption of certain short-term leases and leases of low-value assets.
- The company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.
- The company applies a single recognition and measurement policy for all leases, except for short-term leases and leases of low-value assets.
- The company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### A- Right-of-use assets

- The company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use).
- Right-of-use assets are measured at cost, less any accumulated amortization and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received.
- Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets based on the entity's applied amortization policy.
- If ownership of the leased asset transfers to the company at the end of the lease term or the cost reflects the exercise of a purchase option at the end of the contract, amortization is calculated using the estimated useful life of the asset based on the entity's applied amortization policy.
- The right-of-use assets are also subject to impairment.

#### B- Lease Liability

- At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.
- At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:
  - Fixed payments, less any lease incentives receivable.
  - Variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date.
  - Amounts expected to be payable by the lessee under residual value guarantees.
  - The exercise price of a purchase option if the lessee is reasonably certain to exercise that option.
  - Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

#### 2-2-4 Revenue from contracts with customers

- Egyptian Accounting Standard No. (48) "Revenue from contracts with customers" requires enterprises to exercise judgment and take into account all relevant facts and circumstances when applying each step of the model to contracts with customers. The standard also specifies the method for calculating the incremental costs of obtaining a contract and the costs directly related to the performance of the contract. The standard also requires relevant disclosures.
- The company recognizes revenue from contracts with customers based on the five-step model, as it is disclosed in the Egyptian Accounting Standard No. (48) "Revenue from contracts with customers":
  - **Step 1:** Defining the contract(s) with the customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations. It outlines the bases and criteria that must be met for each contract.
  - **Step 2:** Identify the performance obligations in the contract: A performance obligation is an undertaking in the contract, a contract with the customer, to transfer a good or service to the customer.
  - **Step 3:** Determine the transaction price: The transaction price is the amount of consideration that the company expects to be entitled to in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties.
  - **Step 4:** Allocate the transaction price to the performance obligations stipulated in the contract. For contracts that contain more than one performance obligation, the Group will allocate the transaction price to each performance obligation at the amount to which the Group expects to be entitled in exchange for meeting each performance obligation.
  - **Step 5:** Recognize revenue when the facility fulfils the performance obligation.

- **Sale of Goods**

The company's contracts with customers involve the sale of finished goods and generally include a single performance obligation. The Company has concluded that revenue from the sale of finished goods should be recognized when control of the asset is transferred to the customer, generally when the finished goods are delivered. Therefore, the application of the standard does not have any impact on the timing of revenue recognition.

- **Variable price**

- Some contracts for the sale of finished goods give customers the right to return or discount quantities. Prior to the application of Egyptian Accounting Standard No. (48), the company recognized revenue from the sale of goods measured at the fair value of the price received or receivable, after deducting returns and trade discounts. If the revenue cannot be measured reliably, the Group defers revenue recognition until the uncertainty has passed.
- Under Egyptian Accounting Standard No. (48), the return and trade discount rights increase the variable price. The variable price is estimated at the conclusion of the contract and is credited until the relevant uncertainty clears up later. The application of restrictions on the variable price did not increase the amount of revenue to be deferred.

- **Rights of return**

- When the contract provides for giving the customer the right to return the goods within a specified period, the Group has taken in its previous estimates the expected returns using the probability-weighted average method of the amounts expected to be returned.
- The amount of revenue related to the expected returns was deferred and included in the statement of financial position under the "Liability against expected sales return" item with a corresponding adjustment to the "Cost of sales" item. The carrying amount of the goods expected to be returned is included in the "Inventory".
- Under Egyptian Accounting Standard No. (48), the price received from the customer is variable because the contract allows the customer to return the products. The Group used the expected value method to estimate the goods to be returned.

**Revenue recognition**

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Revenue is measured at the fair value of the consideration received, excluding discounts, rebates to customers and sales taxes or duty.

The following specific recognition criteria must also be met before revenue is recognized:

**\* Sale of goods**

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of the goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates, if any.

**\* Interest income**

Interest income is recognized as interest accrues using the effective interest method. Interest income is included in finance income in the statement of profit or loss.

**\* Government grants**

Government grants that are received as compensation for expenses or losses already incurred for the purpose of giving immediate financial support to the company with no further related costs are recognized in the profit or loss statement in the year in which they become virtually certain, and all attached conditions are complied with.

**\*Export support revenue**

Revenues for export subsidies are recognized as accrued revenue when the export invoice is issued.

## 2-2-5 Property, plant and equipment and it's depreciation

Property, plant and equipment are stated at historical cost net of accumulated depreciation and accumulated impairment losses and the difference of foreign exchange difference will be added according to EAS 13-A (the effect of change in foreign exchange). Such cost includes the cost of replacing part of the plant and equipment. when that cost is incurred, if the recognition criteria are met. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the property, plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit or loss as incurred.

Depreciation of an asset starts when it is in the location and condition necessary for it to be capable of operating in the manner intended by management, and is computed using the straight-line method according to the estimated useful life of the asset as follows:

|                             | <u>Depreciation %</u> |
|-----------------------------|-----------------------|
| Buildings and constructions | 2.5%                  |
| Machinery and equipment     | 6.7%-10%              |
| Motor vehicles              | 10% - 20%             |
| Tools                       | 15%                   |
| Computers and software      | 20% -25%              |
| Furniture and fixtures      | 10%-20%               |

Property, plant and equipment are derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the statement of income when the asset is derecognized.

The assets residual values, useful lives and methods of depreciation are reviewed at each financial year end. The Company assesses at each reporting date whether there is an indication that property, plant and equipment may be impaired. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the statement of profit or loss.

A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in the statement of profit or loss.

## 2-2-6 Projects under construction

Projects under construction represent the amounts that are incurred for the purpose of constructing or purchasing property, plant and equipment until it is ready to be used in the operation, upon which it is transferred to property, plant and equipment. Projects under construction are valued at cost less impairment (if any).

### 2-2-7 Investments in Associates

Investment in associates is investment in an entity over which the Company has a significant influence, but it is neither a subsidiary company nor a joint venture project. Significant influence exists when the company directly or indirectly owns 20% or more of the voting rights in the invested company, unless in exceptional circumstances, it can be clearly determined that such ownership does not constitute influence.

Investments in associate companies are accounted for in the consolidated financial statements using equity method accordingly, investment is initially recognized at cost, including the cost of the acquisition, and then adjusted with the change in the company's share in the net assets of the associate company during the post-acquisition period, and includes profits and losses of its share in the associate's income statement, also, the other comprehensive income of the Company is including the share in the other comprehensive income of the associate.

The book value of the investment is reduced by dividend distribution obtained from the associate company.

### 2-2-8 Treasury bills

In accordance with the requirements of Egyptian Accounting Standard No. (47) "Financial Instruments", treasury bills have been classified on the basis of their measurement - later - at amortized cost through profits or losses, and treasury bills that are being purchased are valued at the nominal value and the difference between the purchase cost and the nominal value is recorded as a deferred investment return of treasury bills and it is amortized with the value of the treasury bills proceeds due "Interest" for the financial period through profits or losses until the maturity date of the treasury bills, and the tax due on the treasury bills returns is recorded, and upon collection, the discounted tax is recorded in the statement of financial position until it is settled with the annual tax return.

### 2-2-9 Inventories

Inventory items are evaluated as follows:

- a) **Raw materials and Spare parts:** at purchase cost on a weighted average basis.
- b) **Work in process:** Based on the cost of production, the last stage that has been completed according to the lists of costs or net realizable value, whichever is less.

The cost includes direct materials, direct labor and a share of indirect industrial costs and does not include borrowing costs.

- c) **Finished goods:** at the lower of the cost of production (based on the costing sheets) or net realizable value.

Cost includes direct materials, direct labor and allocated share of manufacturing overhead excluding borrowing cost.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

The amount of any write-down of inventories to net realizable value and all losses of inventories shall be recognized in cost of sales in the statement of profit or loss in the year the write down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, shall be recognized as reduction of cost of sales in the statement of profit or loss in the year in which the reversal occurs.

#### **2-2-10 Accounts receivable and other receivables**

Accounts receivable and other receivables are stated at original invoice amount net of any impairment losses. The company applies the simplified approach allowed by the Egyptian Accounting Standard No. (47) "Financial Instruments", which requires the recognition of expected credit losses on aging for customers in the statement of profits or losses.

#### **2-2-11 Accounts and notes payable, accrued expenses and other payables**

Liabilities are recognized for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

#### **2-2-12 Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions are reviewed at the financial position date and adjusted to reflect the current best estimate.

Where the effect of the time value of money is material, the amount of a provision should be the present value of the expected expenditures required to settle the obligation. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

#### **2-2-13 Social Insurance**

The Company makes contributions to the Social Insurance Authority calculated as a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when due.

#### **2-2-14 Legal reserve**

According to the Company's articles of association, 5% of the net profits of the year is transferred to the legal reserve until this reserve reaches 50% of the issued capital. The reserve is used upon a decision from the general assembly meeting based on the proposal of the board of directors.

#### **2-2-15 Borrowings**

Borrowings are initially recognized at the value of the consideration received. Amounts maturing within one year are classified as current liabilities, unless the Company has the right to postpone the settlement for a year exceeding one year after the reporting date, then the loan balance should be classified as long-term liabilities.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effective interest rate method. Gains and losses are recognized in the profit or loss statement when the liabilities are derecognized as well as amortization using the effective interest rate method process are recognized in the statement of profit or loss.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance cost in the statement of profit or loss.

## **2-2-16 Income taxes**

Income tax is calculated in accordance with the Egyptian tax law.

### **Current income tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted at the reporting date in Egypt.

The current income tax charge is calculated on the basis of the tax laws enacted at the reporting date in Egypt. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

### **Deferred income tax**

Deferred income tax is recognized using the liability method on temporary differences between the amount attributed to an asset or liability for tax purposes (tax base) and its carrying amount in the balance sheet (accounting base) using the applicable tax rate.

Deferred tax assets are recognized when it is probable that the asset can be utilized to reduce future taxable profits, and the asset is reduced by the portion that will not create future benefit.

Current and deferred tax shall be recognized as income or an expense and included in the statement of profit and loss

for the period, except to the extent that the tax arises from a transaction or an event which is recognized, in the same or a different period, directly in equity.

## **2-2-17 Expenses**

All expenses including operating expenses, general and administrative expenses and other expenses are recognized and charged to the statement of profit or loss in the financial year in which these expenses were incurred.

## **2-2-18 Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that require a substantial period of time to get ready for its intended use or sale, are capitalized as part of the cost of the asset. Other borrowing costs are expensed in the period in which they are incurred. Borrowing costs are the interest and other costs that a company incurs to borrow money.

## **2-2-19 Employees Training Provision**

This provision shall be formed in implementation of the provisions of the Labor law 12 of 2003, the decisions and regulations implementing it. This law came to regulate all labor relations between workers and employers in all sectors - the public sector, the public business sector, the private sector, and the investment sector.

Under that law, the legislator established the Training and Qualification Fund under the text of Article (133), and the legislator has stipulated that the resources of that fund consist of 1% of the net profits of establishments subject to the provisions of this law, whose number of employees exceeds ten workers. Accordingly, the provision is formed at 1% on the net profit of the enterprise.

## **2-2-20 Solidarity contribution**

On 11 January 2018, Law No. 2 of 2018 the Comprehensive Health Insurance Law was issued, which comes into effect on the day following the expiration of six months from the date of its publication in the official publications. This law added financial burdens to employers, Employers are obliged to pay their share of the contributions of their employees at 4% per month from the wage of the insured worker and not less than LE 50 per month. The employers are obliged to pay their monthly contributions to the Social Insurance Authority. Business owners are also obligated to make a comprehensive income contribution of (0.0025) two and a half per thousand of the total annual revenues of individual establishments and companies, regardless of their nature or the legal system to which they are subject. This contribution is not considered one of the deductible costs in applying the provisions of the income tax law, and the Ministry of Finance is responsible for Collect this comprehensive income contribution according to the institution's financial report submitted to the Tax Authority.

## **2-2-21 Related party transactions**

Related parties represent associated companies, major shareholders, directors and key management personnel of the Company, and entities controlled, jointly controlled or significantly influenced by such parties. The terms and pricing policies for transactions with related parties are determined in accordance with the concluded contracts, and the prices of inter-transactions are determined according to the prices of dealing with third parties, and all legal procedures are taken to approve those transactions.

## **2-2-22 Fair Value Measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

For assets traded in an active market, fair value is determined by reference to quoted market bid prices.

The fair value of interest-bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

For unquoted assets, fair value is determined by reference to the market value of a similar asset or is based on the expected discounted cash flows.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Fair value measurements are those derived from quoted prices in an active market (that are unadjusted) for identical assets or liabilities.

- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

#### **2-2-23 Contingent Liabilities and Assets**

Contingent liabilities are not recognized in the consolidated financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognized in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

#### **2-2-24 Impairment of assets**

##### **Impairment of financial assets**

The Company assesses at each balance sheet date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset and has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

##### **Impairment of non-financial assets**

The Company assesses at each balance sheet date whether there is an indication that an asset may be impaired. Where the carrying amount of an asset or cash-generating unit (CGU) exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses are recognized in the statement of profit or loss.

A previously recognized impairment loss is only reversed if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, had no impairment loss been recognized for the asset in prior years. Such a reversal is recognized in the statement of profit or loss.

#### **2-2-25 Statement of cash flows**

The statement of cash flows is prepared using the indirect method.

#### **2-2-26 Cash and cash equivalent**

For the purpose of preparing the cash flow statement, the cash and cash equivalent comprise cash on hand, current accounts with banks and time deposits maturing within three months with less bank overdrafts.

#### **2-2-27 Segment Information**

The main business segment of the company is the sector of production and sale of cheese products, the sector of production and sale of juice products, the sector of production and sale of baked goods products and periodic and annual financial reports on all revenues of the company are prepared on the basis of the existence of three main operating sectors and the executive management of the company monitors the operational units separately for the purpose of making decisions on the allocation of resources and performance evaluation.

### 3 - PROPERTY, PLANT, AND EQUIPMENT

- Fixed assets and ROU assets have been merged and listed in the statement of financial position as follows: -

|                                                                                                                                          | 31 December 2024      | 31 December 2023    |                      |                     |                      |                      |
|------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|---------------------|----------------------|---------------------|----------------------|----------------------|
|                                                                                                                                          | EGP                   | EGP                 |                      |                     |                      |                      |
| Net book value of Fixed Assets                                                                                                           | 772,831,531           | 747,131,961         |                      |                     |                      |                      |
| Net book value of ROU Assets                                                                                                             | 38,939,231            | 29,743,887          |                      |                     |                      |                      |
|                                                                                                                                          | <u>811,770,762</u>    | <u>776,875,848</u>  |                      |                     |                      |                      |
|                                                                                                                                          |                       |                     |                      |                     |                      |                      |
|                                                                                                                                          | Machinery & equipment | Vehicles            | Tools                | Computers           | Furniture & fixtures | Total                |
|                                                                                                                                          | EGP                   | EGP                 | EGP                  | EGP                 | EGP                  | EGP                  |
| Cost                                                                                                                                     |                       |                     |                      |                     |                      |                      |
| As of 1 January 2024                                                                                                                     | 8,221,307             | 197,879,239         | -                    | -                   | -                    | 1,221,347,048        |
| Cost of capitalized assets (First option - Appendix A - Revised EAS No.13) as of 1 January 2024                                          | -                     | -                   | -                    | -                   | -                    | 24,204,416           |

- **Loan from Commercial International Bank (1)**

On 15/7/2019 the company signed a medium-term loan contract with The Commercial International Bank (CIB-Egypt), to obtain a loan of up to 100 million Egyptian pounds.

- **The purpose of the loan:**

The loan proceeds will be used to the financing and/or refinancing of the expansion plan for the fiscal year 2019 in the form of a new bakery production line and its related components, with a maximum amount of EGP 100,000,000 (One Hundred Million Egyptian Pounds only).

- The issuance of letters of credit, whether at sight, on deferred terms, and/or documents against collection with enhanced terms, with a maximum period of 365 days, including the document acceptance period, for importing the necessary components for the new bakery production line and its related items. The maximum amount for this is EGP 33,000,000 (Thirty-Three Million Egyptian Pounds only), equivalent to USD 1,737,000 (One Million Seven Hundred Thirty-Seven Thousand US Dollars only).

- The company is committed to repaying the loan amount on 20 quarterly installments as soon as the grace period ends starting after 18 months from the date of initial withdrawal.

- **Interest rate:** a variable rate of the average corridor price announced by the Central Bank of Egypt, in addition to the margin.

- **Guarantees:** An insurance policy issued by an Egyptian insurance company acceptable to the bank and in its favor as a sole beneficiary against the installation risks of machines and equipment financed by the bank, provided that the installation period is covered by 115% of the total financing amount, including the replacement value, And that the policy should include coverage of the risk of riots and civil and labor disturbances at a rate of no less than 25% of the total amount of the policy.

- **Loan from Commercial International Bank (2)**

Represented in the value of medium-term financing granted to the company by the Commercial International Bank on 18/11/2021 (according to the initiative of the Central Bank of Egypt in December 2019) in an amount not exceeding 54,000,000 EGP (only fifty-four million Egyptian pounds).

- **The purpose of the loan:**

- Financing the investment cost of the company related to the local purchase and/or importing part of the fourth production line for the bakery industry, the croissant production line, machinery and equipment, and both the additional costs and the installation cost for them, in accordance with the terms and conditions stipulated in the loan contract.

- The company is committed to repaying the financing amount in 20 quarterly installments as soon as the grace period ends, which is specified for a maximum of twelve months, expires from the date of the first withdrawal of the financing amount or the withdrawal of the total financing amount.

- **The interest rate:** an 8% interest rate applies to the first tranche in accordance with the initiative of the Central Bank of Egypt, and the corridor interest rate for lending announced by the Central Bank of Egypt applies to the second tranche, in addition to the margin.

- **Guarantees:** an insurance policy issued by an Egyptian insurance company acceptable to the bank and in its favor as a single beneficiary, at a rate of 115% of the total amount of financing, including the replacement value, provided that the document includes coverage of the risk of riots and civil and labor disturbances at a rate of no less than 25% of the total amount of the policy.

- **Loan from EALB**

Represents a credit facility in the form of a long-term loan granted to the company by the Egyptian Arab Land Bank during year 2019 with a total amount of USD 2,100,000 (only two million and one hundred thousand US dollars only).

**The purpose of the loan:**

To finance the import of the bakery production line,

- Loan term: 6 years, including the grace and withdrawal period, with a maximum of 12 months, to be paid in 20 equal quarterly installments.

-**Interest rate:** 3,462% above the 3-month SFOR rate, with SFOR review at the end of each quarter.

-**Guarantees:** Signing (4) promissory notes, each with a value of 525 thousand US dollars, for use in foreign currency. The company is also committed to allocating part of an insurance policy in favor of the bank, amounting to 110% of the total long-term financing against all risks.

- **Loan from QNB**

It is represented in a loan contract concluded with Qatar National Bank Al Ahli on 26 October 2021 (according to the initiative of the Central Bank of Egypt in December 2019) amounting to 66,000,000 Egyptian pounds (only sixty-six million Egyptian pounds).

**The purpose of the loan:**

-It is dedicated to finance production lines with the aim of increasing the production capacity of the industrial activity.

- Loan period: 5 years starting from the date of signing the loan contract and ending on 26/10/2026. This period includes the grace period and the withdrawal period, which is scheduled for one year from the date of the first withdrawal, all provided that the withdrawal conditions established under the loan contract are fulfilled, as well as providing the bank with the documents it deems to allow the withdrawal of loan.

Repayment period: The company is obligated to repay the loan in 16 quarterly installments of equal value from the value of the balance used at the end of the withdrawal period in addition to the applicable return in accordance with the terms and conditions of the loan contract.

-**Interest rate:** 8% according to the initiative of the Central Bank of Egypt.

-**Guarantees:** an insurance policy in favor of the bank covering 110% of the loan value on the assets financed by the bank against all risks.

## 16- CAPITAL

The company's authorized capital as of 31 December 2024 amounted to EGP 282,608,695 (31 December 2023, the Company's authorized capital amounts EGP 282,608,695).

In 2012, the issued and paid-up capital was EGP 30,000,000 divided over 1,200,000 shares of par value EGP 25 each.

On 30 September 2013 the Extraordinary General Assembly approved the raise of the issued and paid-up capital by EGP 20,000,000 divided over 800,000 shares at the nominal value of EGP 25 through share dividends of 2 shares for every 3 outstanding shares. The issued and paid-up capital becomes 50,000,000 Egyptian pounds, distributed over 2,000,000 shares, with a nominal value of 25 Egyptian pounds.

On 21 October 2015 the Extraordinary General Assembly decided the fragmentation of the nominal value of each share from EGP 25 to EGP 0,2 and was approved in the commercial register on 15 December 2015.

On 7 April 2016 the Board of Directors decided (authorized by the extraordinary General Assembly on the 15 January 2016) to increase the paid-up capital by EGP 6,521,739 distributed over 32,608,695 shares with a nominal value of 20 piaster per share then the initial public offering held on the final fair value for the share amounted to EGP 9,20 per share were the difference of EGP 9 were premium share.

According to article 94 of Companies Law No, 159 of 1981 of the Executive Regulations, an amount of EGP 9,366,743 was added from the share premium to the legal reserve. Thus, the legal reserve is half the issued capital, and a special reserve was charged with the remaining amount of the premium of EGP 283,422,423 after deducting the issuance expenses of EGP 689,089 and the capital increase was approved in the commercial register on 17 May 2016, Accordingly, the issued and paid-up capital as of 31 December 2024 amounted to EGP 56,521,739 divided over 282,608,695 shares (31 December 2023: EGP 56,521,739).

On 31 March 2021, the Extraordinary General Assembly decided to reduce the authorized capital from 500,000,000 Egyptian pounds to 282,608,695 Egyptian pounds in accordance with the provisions of Article No.10 of the rules of listing in the Egyptian Stock Exchange that the authorized capital should not exceed five times the issued capital.

## 17- RETAINED EARNINGS

The balance of the Consolidated Retained Earnings on December 31, 2024, is as follows:

**First:** the profits for the period amounting to EGP 501,179,645 are scheduled for approval during the General Assembly meeting, which will approve the financial results for the year ending December 31, 2024.

**Second:** Retained Earnings from previous years with the amount of EGP 733,468,456.

## 24- CONTINGENT LIABILITIES

The balance of the group's contingent liabilities related to letters of guarantee as of December 31, 2024, amounted to EGP 12,400,000 (December 31, 2023: EGP 11,804,000). No significant obligations are expected to arise from these guarantees.

## 25- BUSINESS COMBINATION RESERVE

Business combination reserve represents the difference between the nominal value of the shares of the subsidiary acquired in the Common Control Transaction and the cash paid as consideration for such acquisition, Until the date of the Common Control Transaction, the Business combination reserve represents the nominal value of the shares of the subsidiary owned by the controlling shareholders of the Parent, Cash consideration paid by the Company to the controlling shareholders for the purchase of the subsidiary shares on 30 April 2014 has been reflected as a distribution.

## 26- EARNING PER SHARE

Basic and diluted earnings per share are calculated by dividing the profit for the period attributable to the equity holders of the Parent by the weighted average number of shares outstanding during the period. The earnings per share are calculated after deducting the share of employees and the Board of Directors, which is calculated in an estimated manner to reach the shareholders' share in the profits.

## 29-SEGMENT REPORTING

In 2012, the company was operating in one segment - Dairy products, From September 2013, the Company started the production of juice and from September 2018, the Company started the production of Bakery products therefore the Company started to operate into three segments as follows:

- Dairy products
- Juice Products
- Bakery Products

The Executive Management Committee monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment, Segment performance is evaluated based on gross profits and is measured consistently with profit or loss in the consolidated financial statements. However, the Group's financing (including finance costs and finance income) and income taxes are managed on a Group basis and are not allocated to operating segments.

The amount of each segment item reported shall be the measure reported to the chief operating decision maker for the purpose of making decisions about allocating resources to the segment and assessing its performance.

**Primary segments results – related products for the year ended 31 December 2024 are as follows:**

|                                                             | <u>Dairy products</u> | <u>Juice products</u> | <u>Bakery products</u> | <u>Total</u>         |

### **30- TAX POSITION**

#### **30-1 Arabian food industries company (DOMTY)**

##### **a) Corporate taxes**

The Company was exempted from corporate taxes for ten years starting from the commencement of operation till 31 December 2000.

The company submitted its tax returns on time for the years from inception till 2021 and they were inspected by the Tax Authority for those years, the tax disputes were resolved, and payments were made.

The Company submitted the income tax returns for the years 2022 and 2023 on the legal dates and they have not yet been inspected by the Tax Authority.

**b) Sales taxes / Value added tax**

**Years from inception till November 2020**

The company has undergone a tax inspection for the period from the date of inception till November 30, 2020, and has settled the tax differences resulting from the inspection.

**Period from December 2020 till December 2024**

The company submits monthly tax returns and regularly pays the due taxes.

**c) Salaries and wages taxes**

From the date of inception till 31 December 2022, the Company's records were inspected and all taxes due were paid.

**Year 2023**

The company has submitted the monthly wages and salaries reconciliations on the system of standardizing the principles and criteria for calculating wages and salaries in accordance with the Minister of Finance's Decision No. 251 of 2023.

Applying the Unified Tax Procedures Law No. 206 of 2020 as amended by Law 211 of 2020, the company has prepared and submitted an annual tax settlement of the Company's employees' wages and salaries for the year 2023 on the tax system on the legal date.

**Year 2024**

The Company submitted all the wages and salaries reconciliations on the standardization of the principles and criteria for calculating wages and salaries in accordance with the decision of the Minister of Finance No. 251 of 2023.

In accordance with Unified Tax Procedures Law No. 206 of 2020, as amended by Law No. 211 of 2020, the company has prepared the tax reconciliation for the year 2024 and submitted it to the tax system within the legal deadline.

**d) Stamp duty taxes**

The tax inspection was conducted, and tax disputes regarding the differences arising from the audit were resolved through the relevant committees for the years from the date of inception till December 31, 2015, with all dues settled.

**Period from (1/1/2016 to 26/1/2022)**

The company calculates the tax on advertisements and submits them regularly, and the calculated tax has been paid, in light of the provisions of Law No. 3 of 2022, issued on 26/1/2022 and published in the Official Gazette at number 33.

**Period from (27/1/2022 to 31/12/2024)**

The company calculates the tax on gas consumption and the other bases in addition to the development fee, and the company pays the tax regularly based on the subject form.

**e) Withholding tax**

The company has undergone a tax inspection for the years from the date of inception till December 31, 2015, and has settled the tax differences resulting from the inspection. The Company withholds tax on its transactions with suppliers and service providers in accordance with tax law.

**f) Property tax**

**Years from the beginning of submission till 2021**

The property tax was settled and paid in accordance with the ruling issued by the Administrative Court until December 2021.

**Years from 2022 till 2024**

According to Prime Ministerial Decree No. 61 of 2022, the Egyptian Ministry of Finance fully covers the property tax on buildings used for industrial activities for a period of three years, starting from January 1, 2022.

**Years from 2025 till 2026**

In accordance with Prime Ministerial Decree No. 3 of 2024, the provisions of Decree No. 61 of 2022 have been extended for an additional two years, starting from the day following the end of the original period stated in Article One, and concluding at the end of December 2026.

There are no outstanding tax disputes with the Egyptian Tax Authority, and the provisions recorded in the 2024 financial statements are sufficient to cover the company's tax obligations.

**30-2 El Tatweer for Food Industries Company**

**a) Corporate taxes**

**Years from inception till 2019**

The company submitted tax returns on the legal time, and all tax disputes were examined and settled.

**Years from 2020 till 2023**

The company submitted the tax return on the legal date, and there was no notification from the Investment Authority for major financiers (2) up to date of examination.

**b) Sales taxes / Value added tax**

The Company submitted the tax return for the period from the date of inception till December 2024 and no notification has been received from the Tax Authority for inspection to date.

**c) Stamp Taxes**

**The years from the beginning of the activity until 31/12/2015,**

The period from 8/3/2009 till 31/12/2015 was assessed and the company appealed to the result of the examination.

**Period from 1/1/2016 till 31 December 2024**

No notification was received from the tax authority regarding that period.

**d) Salary taxes**

**Years from inception till 2019**

**34- SIGNIFICANT AND SUBSEQUENT EVENTS**

**Significant Events**

On February 1, 2024, the monetary policy committee of the Central Bank of Egypt decided to increase the overnight deposit and lending rates and the price of the main operation of the central bank by 200 basis points, to reach 21,25%, 22,25%, and 21,75%, respectively, the credit and discount rates were also raised by 200 basis points, to reach 21,75%.

The Board of directors decided on 14 February 2024, to liquidate Fridom Dairy International Company for dairy products (associate) due to inactivity, in which Domty contributes 49% of the capital, with a paid-up capital of USD 600,000. The liquidation took place and the company was deregistered from the commercial register on December 25, 2024.

On March 6, 2024, the Monetary Policy Committee of the Central Bank of Egypt decided to raise the overnight deposit and lending rates, as well as the Central Bank's main operation rate, by 600 basis points to 27,25%, 28,25% and 27,75% respectively, the credit and discount rates were also raised by 600 basis points, to reach 27,75%.

The Central Bank of Egypt also decided to allow the exchange rate to be determined according to market mechanisms. The exchange rates of the Egyptian pound against the dollar and some other currencies have also fallen.

On October 15, 2024, the company received a mandatory purchase offer from the Danish company Arla Foods to acquire 100% of Domty's shares. The offer included a preliminary, non-binding proposal of approximately EGP 8.897 billion, representing an initial non-binding price of EGP 31.48 per share.

On October 23, 2024, Prime Minister Decision No. 3527 of 2024 was issued to add a new standard (51) 'Financial Statements in Hyperinflationary Economies' to the Egyptian Accounting Standards (EAS). This standard requires companies operating in hyperinflationary economies to adjust their financial statements to reflect the current purchasing power of the functional currency. The standard should be applied when the Egyptian economy or the entity's operating economy is officially recognized as suffering from hyperinflation. This typically occurs when cumulative inflation rates over a three-year period reach or exceed 100%, although other qualitative factors may also be considered.

On December 26, 2024, the Monetary Policy Committee of the Central Bank of Egypt decided to maintain the overnight deposit and lending rates, and the central bank's main operation price at 27.25%, 28.25%, and 27.75%, respectively. It also decided to keep the credit and discount rate at 27.75%

The impact of the current uncertain economic environment is an estimate, and management will continue to assess the situation and its related effects on a regular basis. It should also be noted that assumptions about economic forecasts are subject to a high degree of inherent uncertainty, meaning that actual outcomes may significantly differ from projected information. The company has considered the potential effects of current economic fluctuations in determining the recognized amounts of its financial and non-financial assets, representing management's best assessment based on available information. However, markets remain volatile, and recorded amounts remain sensitive to market fluctuations.

The exchange rates of the Egyptian pound against the Dollar and some other currencies also declined.

#### **Subsequent Events**

On February 20, 2025, the Monetary Policy Committee of the Central Bank of Egypt decided to maintain the overnight deposit and lending rates, and the central bank's main operation price at 27.25%, 28.25%, and 27.75%, respectively. It was also decided to keep the credit and discount rate at 27.75%
